Assembly of this kit requires common household tools and:
• Drill  • Hole saw • Measuring tape, level & square • 2" (51 mm) Masking tape
• 1/4" (6.3 mm) “v-notched” trowel for spreading adhesive
• One (1) 10.3 Fl. Oz. (304 ml) cartridge of latex/acrylic caulk
• 10.5 Fl. Oz. (310 ml) cartridges of one of the following approved adhesives-
  Six (6) cartridges -  1-Piece Bathtub/Shower Walls
  Four (4) cartridges - Corner Seamless Shower Wall
• ASB Adhesive & Caulk Kit (2 kits)
• Franklin MultiBond
• Macco Adhesives’ Liquid Nails for Tub Surrounds (LN-915)
• Dap 2000 Construction Adhesive
• Macklanburg-Duncan Adhesive (suitable for polystyrene)

TOOLS & MATERIALS REQUIRED
Assembly of this kit requires common household tools and:
• Drill  • Hole saw • Measuring tape, level & square • 2” (51 mm) Masking tape
• 1/4” (6.3 mm) “v-notched” trowel for spreading adhesive
• One (1) 10.3 Fl. Oz. (304 ml) cartridge of latex/acrylic caulk
• 10.5 Fl. Oz. (310 ml) cartridges of one of the following approved adhesives-
  Six (6) cartridges -  1-Piece Bathtub/Shower Walls
  Four (4) cartridges - Corner Seamless Shower Wall
• ASB Adhesive & Caulk Kit (2 kits)
• Franklin MultiBond
• Macco Adhesives’ Liquid Nails for Tub Surrounds (LN-915)
• Dap 2000 Construction Adhesive
• Macklanburg-Duncan Adhesive (suitable for polystyrene)

REQUIREMENTS FOR A SUCCESSFUL INSTALLATION
1. Read these instructions and confirm that all components have been included before beginning installation.
2. Walls must be solid, plumb & square. This kit has been designed with some adjustability for minor alignment problems, but a poor foundation will result in a poor installation.
   • Walls should be 1/2” (13 mm) drywall or water-resistant drywall. The surface must be free of dirt, film, waxes or any other residues. Painted surfaces must be sanded. Remove wallpaper. Do not install panels over existing ceramic tile or plywood.
   • Walls should not be installed in areas where the temperature may drop below freezing (32ºF or 0ºC).
   • Allow panels to reach room temperature for 30 minutes before installing.
   • Save shipping carton for use as a template for locating plumbing fixtures.
3. Dry fit wall panels before applying adhesive. If trimming is necessary, carefully score the panel with a utility knife and straightedge and snap apart.
4. Apply adhesive directly to drywall using a 1/4” (6.3 mm) v-notched trowel. Cover the entire area behind the panel. Press panel against wall, then pull panel away from wall for 30 seconds to allow solvents to escape. Re-press panel firmly against wall to ensure proper adhesion. Follow adhesive manufacturers’ instructions and note all ventilation and installation precautions.
5. Follow manufacturers’ instructions but allow at least 24 hours for caulk and adhesive to set before using.

1-PIECE BATHTUB/SHOWER WALL SURROUND KIT

Model No.:
Customer: Please record your model number. The model number is found on the label located on the front panel of the box. It is very important to record your model number. This information is necessary when contacting us. If you have any questions on the installation of this unit, please do not return to the store where you purchased it. For additional help, call 1-800-355-ASB1, 8:00 am – 6:00 pm (ET) Monday – Thursday and 8:30 am – 3:30 pm (ET) on Friday, or email us at customerservice@asbcorp.com.

FIGURE 1
Draw a plumb line at the front of tub or base on both sides. This will locate the front edges of the wall surround. Optional: Attaching wood furring strips will assist you in the installation (Figure 1).

1-Piece Bathtub/Shower Walls - Locate and mark the center of the alcove back wall with a pencil (Figure 1).

Corner Seamless Shower Wall - If the distance from the plumb line to the corner is less than 38”, trim the difference (e.g., 38” - 36” (plumb line to corner) = 2”). Measure and trim both sides. Note: Panel can be turned over for right-hand or left-hand installation.

FIGURE 2
1-Piece Bathtub/Shower Walls - Measure the length of the wall panel to locate the center of the surround. Mark the center with a pencil. Dry fit the surround in the alcove by aligning the center of the panel with the alcove and the edges with the plumb lines (Figure 2).

Corner Seamless Shower Wall - Dry fit the surround in the corner by aligning the panel with the plumb lines/corner.

FIGURE 3
Trim front edges, if necessary. Trace along the top of the panel with a pencil. Mark and cut plumbing holes in wall panel with a hole saw.

Hold foam block on the top edge of the surround and butt into corner. Trace curve(s) and cut the foam block. Remove panel. Adhere cut foam to drywall. Use finish nails to hold block(s) in position while adhesive dries (Figure 3).

Staying within your pencil lines, trowel adhesive to the:
1-Piece Bathtub/Shower Walls - alcove’s BACK wall and foam block. Do not apply adhesive to the alcove’s side walls. Position surround in alcove, align center marks and press firmly in place.

Corner Seamless Shower Wall - walls and foam block. Position surround in corner and press firmly in place.
CARE AND CLEANING

For regular cleaning use only mild detergents or warm, soapy water applied with a soft cloth. Always rinse surfaces after cleaning and dry by blotting with a damp cloth or chamois. Because cleaning products often change over time, we cannot recommend a specific cleaner to use on this product. However, whichever you choose:

- Always check the manufacturer’s instructions
- DO NOT use a cleaner on this product if the label indicates it should not be used on plastics

To make this product last its longest:

- Always rinse off cleaners within 5 minutes of application
- Rinse off cleaners even if they say they are “spray on & walk away”

NOTE: The surround may be protected with an invisible antibacterial protectant that is built-in. Refer to the carton label. The protectant inhibits the growth of bacteria, mold and mildew that may affect the product’s surfaces - preventing problems such as discoloration and odor. It does not however, protect the user or inhibit the growth of germs or disease organisms found on the body. Thoroughly clean and wash the surfaces as directed.

LIMITED WARRANTY

Please refer to the product label (located on the carton) to outline your model’s limited warranty period.

The manufacturer warrants to the original consumer purchaser that its products will be free of defects in materials and workmanship, subject to the limitations, exclusions and conditions that follow, from date of original purchase as shown on purchaser’s receipt. The manufacturer will, at its discretion, replace or repair FREE OF CHARGE, during the warranty period, any part which the manufacturer determines to be defective in material and/or workmanship under normal installation, use and service. The original consumer purchaser must notify the manufacturer in writing of any defect covered by the warranty at the address listed. THIS WARRANTY IS THE ONLY EXPRESS WARRANTY MADE BY THE MANUFACTURER. ANY CLAIMS MADE UNDER THIS WARRANTY MUST BE MADE DURING THE PERIOD REFERRED TO ABOVE. ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IS LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY. LABOR CHARGES AND/OR DAMAGE INCURRED IN INSTALLATION, REPAIR OR REPLACEMENT AS WELL AS INCIDENTAL AND CONSEQUENTIAL DAMAGES CONNECTED THEREWITH ARE EXCLUDED AND WILL NOT BE PAID BY THE MANUFACTURER. Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. This warranty is void for any damage to this product due to misuse, abuse, neglect, accident, improper installation, modification, unauthorized repair, or any use violative of instructions furnished by us.
